Lies

Here are a few lies from democrats and the press. The democrats rely on the activist press to get their false stories out. The media continues to lie to the American people. Additionally, many stories which should be reported are never reported because they reflect a bad perspective on the democrats. Why can't the press report the facts and let the American people decide? We all know the answer to that. The press/democrats provide many statements, but no facts to back anything up. Anyone would be able to ask better questions than the press.
