This magazine provides information required to analyze and comprehend today's political environment. The magazine is provided for easy reading and understanding. Do your own research – compare news stations, watch interviews, visit Congressional sites and make your own analysis.

Author: Mitch Babin

Fake News – Propaganda Arm for the Democrats

The liberal news has always been left, but over the last 8-10 years the news outlets have become propaganda tools for the Democratic party. During Trump's administration the mainstream press no longer reports accurate news but makes up news to help the Democratic Party. Most people call this Trump Derangement Syndrome (TDS). Not only do they report 90% of the news negatively, but they hardly ever report the positive outcomes of his policies. In addition, they refuse to report on the disastrous Democratic policies. I will cover a few of these areas in the next few pages and provide several questions and short answers. I have listed page after page of positive policies which have made life better and safer for all Americans in my previous volumes 1-3 (can be viewed at commonsense.com).

Most Americans don't have the time for research in these areas and only spend the evenings watching the late propaganda "news". I will provide you with facts to contradict the false news the press is reporting and give you additional ideas to think about.

How can anyone trust the media when they NEVER challenge democrat policies, ask follow-up questions and are constantly wrong! Why does the press time and time again fail the American people? Can we ever trust the press? The press constantly gets everything wrong and fails to admit it. Before I start with the craziness, here are the Top Seven Major Lies and Misinformation by the Democrats over the past few years and remember how the main media covered for them.

(1) Biden's Mental Health; (2) The Border is Secure; (3) Russian Collusion; (4) Hunter Biden Laptop; (5) Covid & Fauci; (6) Climate Change; (7) Hillary's Server.

Why was the press wrong on the seven issues above? Not just wrong but pushing the lies and misinformation for the Democratic party. Will there ever be accountability by the mainstream media along with on-line news and printed papers? I will cover just a few of the key areas over the new few pages.

AFFORDABILITY

Communism/Socialism vs Capitalism

Why did the press only start pushing the affordability issue after President Trump was sworn in as president? Affordability is an issue today but was much worse under Biden and the Democrats. President Trump is fixing the issues of the past but cannot fix everything at once and is slowly resolving the problem without any Democratic support in the Senate or House of Representatives.

During Trump's first four years the average citizen income rose by \$6,000. Under the Biden administration the average citizen lost around \$1,200. In the past 18 months salaries have been slightly ahead of inflation.

What were some of the causes for the affordability issue?

Open Borders.

- 15-20 million or so individuals crossed illegally into our country. The number of illegals allowed employers to hire them at a lower cost. This reduced salaries and jobs for the hard-working middle-class Americans.
- Home ownership and rental costs were driven up by the influx of illegals. Sanctuary cities and states putting illegals in hotels and further wasting taxpayer dollars.
- Mandatory schooling for illegal school children. Non-speaking English students took time away from our own children's education. Increased costs by providing additional teachers and rooms to house them.
- Sanctuary states and cities provided free medical and passed on to taxpayers.
- Sanctuary states and cities provide free legal advice and passed on to taxpayers
- Criminal activity by the thousands if not hundreds of thousands of illegals

President Trump is removing these individuals which is resolving the bad issues above, but this was created over four years and will take some time to resolve. The democrats are fighting tooth and nail to keep these illegals here and keep these bad policies.

Green New Energy.

- Democrats have a war against fossil fuels. Fuel prices skyrocketed to all time highs under Obama and Biden. Gas prices reached \$5.02 a gallon and over \$100 a barrel for over 1,000 days with Obama and Biden. At the same time, they were closing refineries. Prior to the last presidential election, Biden opened the Strategic Petroleum Reserve to lower prices until the elections. At the same time, electric prices were surging and reliance with solar and energy was never accounted for.

President Trump's policy with "Drill Baby Drill" lowered gas prices tremendously. They have gone up temporarily with the Iran War but will tumble once the conflict is over and will have stable lower gas prices for the indefinite future. Building first refinery in 25 years in Texas.

Wasteful Spending

- Democrats against Department of Government Efficiency (DOGE). Agency found billions in waste, but Democrats want to continue to fund wasteful agencies.
- Democrats against wasteful spending. Is this because non-profit organizations which are receiving much of this money are donating back to the democratic party?
- CA Bill 2624 prevents individuals from filming illegal government activities.
- Democrats skipping out on Congressional testimony regarding the fraud issue.

Tariffs

- Democrats argued against tariffs and sued and won in federal court. Democrats are against fair treatment for American companies selling products overseas because it's Trumps policy to make America Great again.
- President Trumps tariffs policies provided equal and fair trade between the United States and countries around the world.
- Democrats sent thousands of manufacturing jobs to other countries because it was cheaper for big businesses.
- President Trumps tariff policy brought estimate as high of \$20 trillion into the U.S. for new investment. Along with investments, thousands of temporary construction jobs will be filled later by permanent positions once the plants are completed. As of the last count, 28 medical plants are being built in the U.S. and continue to grow.

Open Borders

- Democrats want mass amnesty for illegals. Individuals who have waited to come here for years are now placed behind these criminals.
- Democrats want illegals counted in the census, so they can get seats.
- President Trump CLOSED the border and returning millions of illegals even though the Democrats said time after time that the border was "secure".
- 1,400 miles of the wall keeps illegals out and Americans safe.
- Closure of border by Trump led to massive drop from overdose deaths.

Other Miscellaneous Issues Regarding Affordability

- Economy growing, high GDP and more Americans working than ever in history. "The Economist" magazine (left leaning) stated AI created 1 million jobs while we lost 200,000. Created over 1 million jobs just in August and September.
- Congressional democrats want to impeach Trump. Ask them why and they still answer, "we don't know why". Democrats continue to stunt the American economy.

- Axis of evil (China, Russia, Iran, North Korea) gained strength under Biden. Allies around the world are paying more of their fair share to support freedom
- Central American countries are becoming free from the socialist states.
- Trump accounts provide an economic future for our children. Dell family alone donated \$6 Billion to these accounts along with other philanthropists.
- President Trump's policies have lowered the crime rate to record lows. FBI is doing the job that is in their job description and not going after the other political party.
- ICE arresting criminal illegals and returning them back to their country of origin.
- DHS provided an incentive for illegals to self-return to their homeland an estimated 1.9 to 2.2 million have self-departed.
- Federal benefits have been cut for individuals who have the capability to work.
- Was Biden's cancer diagnosis delayed because the Democrats wanted to get him re-elected and covered up his medical conditions?

All the issues above have stunted growth in the economy (Democrat policies) or provided beneficial for the average American worker (Republican policies).

The issues below are democratic views and policies and how they would hurt the economy.

Democratic Party

- Allowing the Democratic Socialist of America (DSA) into their "Big Tent"
 - DSA economic and social policy is social ownership of private corporations; universal healthcare; housing as a human right; green new deal, free college; economic equality and minimum wage increase.
 - Increased minimum wage to \$20 for everyone. How does this affect affordability? Wouldn't this increase the cost of all goods and raise inflation. Only 1% of our population make the minimum wage, if this was increased to \$20 for everyone, would this take away pay raises for individuals who were making \$20 and prevent any increase for those individuals?
 - DSA Government and Structural Reforms: New constitution, abolish the Senate, Electoral College and the Supreme Court; Criminal Justice Reform to cut police departments, ICE and the military.
 - Close prisons and release murders, rapist and criminals back into society.
- Refuse to cross over and work with the Republican party, even if it provides the American people a win for our country. President Trump works with all sides to ensure the best for the American people. Look what happened when he worked with Mark Cuban, drug prices dropped.

- Six democrats voted for the Save American Act and senior democrat leadership threatened them for going against the party, instead of helping the country.
- Senator Fetterman introduced Sen McCormick at the Republican convention and now they are threatening to primary him when he is up for re-election (how does he fit into the “Big Tent”)? Only in the big tent if you accept “it’s our way or no way”.
- Refuse to debate – cannot provide any logic for their thinking except you are a racists if you don’t agree with us.
- Non-supportive of the American military in the Iranian war – “we are losing”
- Against the arrest of Dictator and Drug King Nicolas Maduro and his wife.
- Supports Diversity, Equity and Inclusion and against merit. Individuals should be hired or selected because of their race, gender, age or background. Who would want a heart surgeon working on them who was chosen because of DEI?
- Democrats praised Fauci after taking the 5th 111 times. Even after Fauci’s emails were released and the truth came out, Democrats continue to support him.
- Voting against Voter ID even though 80% of the country wants. California passed a law that said you could not challenge a ballot signature that appeared to be invalid.
- Democrats want mutualization of children before they turn 16.
- Refuses to acknowledge Americans who were killed by illegals.
- Pay for transgender surgeries for criminals in prison.
- Voted for the highest tax increase in American history.
- Undermining U.S. foreign policy.
- Allow drag queen shows in classes as young as kindergarten.
- Abortion on demand, up to the birth of the baby.
- Against protecting women in women’s sports.
- Protects illegals over Americans.
- Changed the first presidential primary (from IA to SC) so they could rig the outcome.
- Democrat prosecutors refuse to prosecute criminals.
- Democrats continue to push for mail in ballots. Results in past elections show issues with fraud and unaccountability.
- Placing handcuffs on the police from doing their jobs and catching criminals.
- You are called a “racist” if you disagree with the Democratic party.
- Why are Democrat candidates running away from their comments from the past? What are their true beliefs? History shows the individuals return to their original positions if they end up winning?
- **Can anyone name one good, reasonable Democrat policy?**

Financial Issues:

- Democrats voted against giving middle class Americans tax cuts on overtime. Republicans provided overtime tax benefits for most Americans.
- Democrats voted against Senior Tax Cuts of \$6,000. Republicans provided a \$6,000 tax cut for every American over 65.
- Democrats voted against giving middle class Americans no tax on tips. Republicans voted to provide no tax on tips for most Americans.
- Average American 401K up \$50K this year alone.
- More Americans are working now than ever in U.S. history
- President Trump had the largest drop in prescription prices in 60 years.
- Food prices under Biden went up 25% compared to 3% over the past year.
- American energy dominance around the world, all phase of fossil fuel along with nuclear, solar and wind power.
- President Trump is bringing back manufacturing jobs. Construction of these facilities is now happening and within a year or two they will be open and hiring these permanent employees for these facilities.
- Roughly 317,000 to 335,000+ federal employees left the government in 2025. What is the annual cost savings of this annually?

Iran War:

- Removing the nuclear threat
- Stopping the export of terrorist. Removing the terrorist groups backed by Iran: Hezbollah, Hamas and the Houthis.
- Bringing stability to the Middle East, possibly the first time in history.
- Middle east countries are now on the side of the U.S. against Iran. Lebanon and Iraqi leaders visited the Whitehouse recently to show us their support.
- Created pipelines and shipping routes for cheaper oil & gas.

Safety:

- Open border; thousands of criminals (if not hundreds of thousands) were allowed into this country. Foreign countries released their prisoners into our country.
- Democrats want boys competing against girls in women's sports
- Democrats want boys in girl's locker rooms and bathrooms.
- Democrats don't care how many Americans are killed, injured or crimes committed against. Claim these actions are more likely to happen by Americans.
- Democrats want to place criminals back on the streets and close prisons.

- Democrats refuse to turn over illegal criminals in jail to ICE and they release them back to the streets for additional criminal activity.
- President Trump identified cartels as terrorists' organization and is destroying them.
- President Trump is making criminals accountable for their crimes.

Education:

- Democrats believe unions should control what schools teach. Democrats receive financial donations from the American Federation of Teachers (AFT) and National Education Association (NEA) even with their failed policies in teaching our children.
- Unions continue to propagandize the school systems with their radical ideas instead of teaching facts and American history. Democrats have pushed their radical ideas in college for years but recently have been pushing it at all grades.
- AFT & NEA fully support the democrats but not the students they are supposed to teach.
- Schools are failing everywhere, yet Democrats are against school choice, they believe the government knows better than the parent.
- Do Democrats purposely keep students ignorant so they will vote Democrat?

Voting:

- Democrats against the Save America Act which requires ID to vote.
- Why were hidden ballots pulled from under a table during the 2020 Presidential election. Democrats claimed it was because a burst water pipe. Why were individuals told to leave the room before the leak and then somehow the ballots were recovered under the table?
- Why does it take Democratic states days if not weeks to count ballots?
- In previous elections the average of mail in ballots not accepted rate was approximately 6%. During the 2020 election, the numbers decreased to under 1%. Why the change?

Insurance:

- Medicare for all.
- 60+% of Americans would lose their employment health insurance.
- How can the government raise \$15 trillion dollars to cover everyone?
- Why would companies spend millions discovering lifesaving medicines or equipment if there was no financial advantage for them?
- Are you willing to wait months or years to see a specialist doctor? A recent report from Canada showed the 50% of people die while waiting to see a specialist.

Trump's Accomplishments 3rd Quarter of 2026 (July to September)

Listed below are some of the accomplishments this quarter or from data that was recently released. Has there ever been a President to have so many accomplishments? See the previous accomplishments in Volumes 1 – 3! Compared to Biden's policies which were horrific for the country (Afghanistan pullout, open border, safety, climate change, education, inflation, etc).

- Taiwan Doubling Size of its Arizona Chip Plant
- America's Nuclear Energy Comeback through Federal Executive Actions
- America is the Envy of the World; 2026 GDP Per Capita: USA at \$94,43K, Germany at \$65,3K, Canada at \$60.3K and China at \$14,87K
- Greatest Celebrations and Fireworks for the U.S. 250th Anniversary Party in D.C
- U.S. Accounted for Nearly Half of Newly Created Millionaires in 2025
- FBI Achievements: One Million Fewer Violent Crimes in 2025; 44,000 Violent Criminals Arrested; \$15 Billion Seized from Scammers and New International Partnerships Built to Fight Fraud
- U.S Military Recruitment Reaches 15 Year High Across All Military Branches
- U.S. & Saudi Arabia Sign Historic Civilian Nuclear Deal
- U.S. and Israel Signed Agreement to Allocate Land for a New, Permanent U.S. Embassy Complex
- Trump Accounts for Kids: U.S. Deposits \$1K for Newborns and Allows Up to \$5K in Contributions by Individuals and Employers Per Child Per Year, Additional Donors Are Providing Billions of Dollars
- Millions of Children Being Auto-enrolled in Trump Accounts and Money from Corporations & Organizations Are Being Placed in Those Accounts in Addition to the \$1,000 for Newborn Children
- Wages Outpacing Core Inflation; May Core CPI 2.9%, June Average Earnings 3.5%
- Dept. of Transportation Invests \$1.776 Billion to Honor America 250 at America's Airports
- Toyota Investing \$3.6 Billion in Texas Plant for Truck Production; Shifting from Mexico to Texas
- Captured All of the Individuals on the FBI Top 10 Wanted Lists; Biden Captured 4 in 4 Years
- 97% of Filers Received a Tax Cut This Season, Average Refund of \$3,276
- Ratepayer Protection Pledge Secures American AI Dominance and Ensures Data Centers, Not Ratepayers, Fund the Electric Generation and Infrastructure Projects
- Families Tax Cut Saved \$82B in Individual Relief Compared to the \$5T Tax Hike Democrats Wanted
- China Fulfilling Deal to Buy \$17 Billion in U.S. Agricultural Products Annually
- Release of Dena Karari, a U.S./Iranian Citizen from Iran Who Was Held Since December 2024
- Real Median Household Income Trump First Term: \$6,640, Biden: \$569 and Trump: \$3,090 (so far)
- Treasury Stops Payments to the Dead: \$2.77T Reviewed; Nearly 5,000 Payments Flagged; Stopped Nearly \$100M Before Payout and Payments Were Linked to Deceased Recipients
- Prescription Drug Prices Annual Change Dropped 2.5%, Lowest Drop in Decades
- Billions of Dollars of Fraud Uncovered Across All Agencies of the Federal Government
- American Missionary Kevin Rideout Freed After Spending Months in Captivity
- D.C. Crime Crackdown: 35 Homicide Suspects and 100+ Known Gang Members Arrested; 3,200+ Narcotics Arrests; Nearly 2,000 Illegal Guns Seized and 25 Missing Children Located

- Violent Crime Drops in 66 Large Cities: Homicides Down 17.2%, Robberies Down 16.6%, Rapes Down 6.2% and Aggravated Assaults Down 5.7%
- U.S. Veteran Robert Gilman Released from Russian Custody After Spending 1,666 Days Detained
- Medicaid Ends Funding for Mutualization of our Children (Child Sex Change Surgeries)
- U.S. Department of Justice Charged 11 Individuals in New York for Running a Decade-Long Network That Arranged More Than 1,000 Sham Marriages to Fraudulently Obtain U.S. Green Cards
- 1.2% Real Wage Increase Compared to -3.9% Under Democrats & Biden
- Deal with Venezuela to Take Control of 65 Billion Barrels of Oil Reserves
- Unemployment Claims Have Reached Lowest Level in 50 Years
- Producing More Oil and Gas Today Than Ever in History
- 150 Million Americans Invested in Stocks; Average 401K Balance Climbed to a Record \$155,800
- Fraud Crackdowns - Saving Billions of our Taxpayer Dollars Across All Federal Agencies: GAO Says Fraud is Costing Taxpayers Roughly \$1 Billion a Day, Democrats Continue to Fight Investigations
- Real Median Household Income \$87,640, Highest on Record Since They Started Tracking the Data
- Change in Real Median Household Income from 2024 to 2025: Black Up +4.8%, White Up +2.9%, All Household Up +2.6%, Asian Up 1.5% and Hispanic Up 1.1%
- Real Weekly Earnings for Blue-Collar Manufacturing Workers Have Risen 4.1% While Blue-Collar Construction Workers Have Risen 5% Since January 2025
- Child Poverty Rate Fell to a Historic Low of 13.4%, Backed by Rising Median Household Incomes
- Overall Poverty Rate Dropped to 10.2%
- 16 Straight Months with "0" Releases at the Border
- U.S. Life Expectancy on Track to Reach Record High as Death Rate Falls to Record Low in 2025
- All 50 States are Joining the Medicaid "GENEROUS" Model, Trump's Drug Pricing Initiative Applying "Most Favored Nation" (MFN) Pricing to Brand-Name Drugs in State Medicaid Programs
- U.S. and Denmark Reach Deal for Security in Greenland
- Accelerating Domestic Lithium Production through Major New Deposits and Extraction Projects
- Largest Drop in Violent Crime in U.S. History; Murder Rate Dropped to Lowest Level in 100 Years
- 1.1 Million Fewer Violent or Aggravated Felonies Committed in 2025 Than in 2024
- Caught 6 Out of 10 Suspects on FBI Most Wanted Fraudsters List
- S&P Global Flash US Manufacturing Output Index Rose to 56.7 in Sept Marking a 53-Month High
- Flash US Services PMI Business Activity Index Rose to 58.7 in Sept Marking a 59-Month High
- IMF Projects That the U.S. Will Grow More Than Twice as Fast as the Eurozone or Canada This Year
- South Korea Makes \$200B Energy Investment with Pipeline in Alaska
- \$3.2 Billion Shipyard Investment in Brownsville, Texas; Creating 10,000 Jobs
- Bringing Back Jobs and Investment in Iowa; Plans for the Biggest Steel Plant in U.S. History
- U.S. Household Wealth Jumps by \$12.8 Trillion in 2nd Quarter
- Jobs Added by Household Employment Survey for August - 569,000 and September - 406,000
- Business to Business Output Grew 13.8% In the Second Quarter
- Bayer Pharmaceuticals Plans to Invest \$2.2 Billion in Ohio, Employing Around 600 People
- Created "America.gov"; Whatever You Need from the Government, Start Here

Craziness

Continuation from Issue 1 -3. **Unbelievable** reports, comments, views and policies from the Democratic party and the media. Do your own research and see how ridiculous these thoughts and ideas are. It would be easy to publish pages every day of these insane Democratic thoughts and ideas.

Know the Facts – Do Your Own Research

It’s Unfortunate the Press Doesn’t Tell the Truth

Vote: You Decide – The Facts Matter

Here are comparisons between democrats and republicans. Democrats main policy is to “hate” Trump and stop any policy even if it’s great for the country. Check out the democrat’s history and see if any of these options are good for you or the country.

1. Affordability. 21+% inflation with the last administration. No policy changes, only plan on spending more money and raising taxes. **Republicans** cut inflation by over 50% and poverty rates at record lows and real median household at record high in 2025. **Do we want to return to the 21% inflation?**
2. Taxes. Increase taxes for everyone. Voted against no taxes on tips, overtime or social security. **Republicans** passed the Big Beautiful Bill which provided tax cuts for seniors and average workers. **Do we want to stop the tax cuts and let government spend our money on their pet projects?**
3. Open Borders. Ten to twenty million illegals (many criminals) entered. Lower paying jobs, higher rents and major reason for high inflation. **Republicans** stopped the massive wave of illegals. Removing illegal criminals, lowering inflation and keeping our citizens safe. **Do we want an open border?**
4. Public Safety. Allowed millions of illegals into this country to kill, rape, rob and injure American citizens. **Republicans** are protecting all Americans and hitting record lows for all types of crime. **Do we care about the average American’s safety?**
5. Defund the Police. Place handcuffs on police. **Republicans** put handcuffs on criminals. **Who is being penalized the most when we are soft on crime?**
6. U.S. Immigration and Customs Enforcement (ICE). Wants to dismantle and allow illegal criminals to stay in our country after allowing 10-20 million under the Biden administration. **Republicans** want to remove illegals and protect American citizens from their violent crime. **How many Americans must die or become victims of crime before Democrats take a stand?**
7. Release and Closure of Prisons. Violent criminals are being released into society to murder, rape, rob and all other types of crime. **Republicans** want criminals to serve their time. **Why are Democrat governors releasing thousands of felons early back onto the streets? Does this make us safer?**
8. Boys in Girls Sports. Title IX was created to give girls equal treatment. Girls have worked long and hard to get where they are today. Now they are giving those rights to boys who cannot compete against their own. **Republicans** want fair treatment, boys against boys and girls against girls. **Why are the Democrat leaders not standing up for females? Where are the feminists?**
9. Medicare for All. Remove 165+ million individuals off employer sponsored healthcare to a government run agency. Has the government run any operation successfully? Longer wait times and worse care for everyone. **Republicans** want you to pick what works best for you. **Who is going to pay for all of this? Where will the innovation of life-saving drugs and funding research going to come from?**

10. Fossil Fuels. Force everyone to stop using and go green to solar power and wind energy. (CA today).

Republicans support all types of energy. **How is American going to survive without fossil fuels?**

11. Gas Prices. Wants high prices to take us off fossil fuels. Reached record high of \$5.02 and cancelled the Keystone pipeline and closed refineries. Biden and Obama oil prices were over \$100 a barrel for over 1,000 days. **Republicans** reduced prices to \$2.98 and high at \$4.40 for short term during war, but projected drop to the \$2 range once conflict ends. Trump's two administrations over \$100 70 days. Yes, we care about prices now, but **don't we want lower gas prices indefinitely into the future?**

12. Israel. Antisemitic sentiment spreads throughout the party. Would there be an Israel if democrats control all areas of government over the next 10 years? **Republicans** support Israel and their existence. **Do we support a peaceful government or terrorist groups who put their own citizens at risk?**

13. Iran. Wants to end the war now and allow them to develop a nuclear weapon so they can be a threat against the world. **Republicans** want to end the 47-year war and any chance they get nuclear weapons in the future. **Do we want short-term higher gas prices for future world stability and lower gas prices?**

14. Manufacturing. Continue to support China and 3rd world countries by shipping jobs overseas. **Republicans** want jobs back in the U.S. and control our valuable resources. **Do we want China or a foreign country to control our drugs/vital resources? What's wrong with bringing jobs to America?**

15. Drug Pricing. No action to lower medical costs or drug pricing. **Republicans** forced tariffs on drug companies to lower prices on prescriptions. **Since we are developing most of the drugs around the world, shouldn't we have the lowest costs for our citizens?**

16. Education. Teacher unions control the party, and the results are the worst literacy outcomes for our children. **Republicans** push for school choice and provide the parents the opportunity to have their children succeed. **I thought Democrats wanted choice? Who knows what's best for our children?**

17. Homeless. Continue providing needles and money. **Republicans** want to treat the symptoms and problems of these individuals. **Do we want to continue providing funds and see the epidemic grow?**

18. Vocabulary. Change "women" or "mothers" to "birthing people"; "homeless" to "unhoused people"; "inmates" to "criminal justice impacted individuals"; "Addiction" to "substance use disorder". **Republicans** want to keep the words we've used for decades. **Why change the meaning of words?**

19. Problems. Continue to talk about fixing problems, but with 0 results. Obamacare is probably the best example, but it has been a disaster – prices up, lost your plan and doctor, removal of many health policies and higher student loan debt. **Republicans** have been fixing problems day after day (see accomplishments for Trump) like no other administration in history. **Do you want solutions?**

20. I can go on and on, but running out of space of all the bad democrat policies!!!

Do the Democrats Have Any Good Policies?
