Charlie Kirk: An “AI” Biography

Charlie Kirk was born on October 14, 1993, in the Chicago suburb of Arlington Heights, Illinois. Raised in a middle-class family, Kirk attended Wheeling High School, where he began showing an early interest in politics and public affairs. His political activism started at a young age, and he wrote for Breitbart News during his teenage years. Kirk briefly attended Harper College but left before graduating to pursue his passion for political activism full-time.

In 2012, at just 18 years old, Charlie Kirk founded Turning Point USA (TPUSA), a conservative nonprofit organization. TPUSA’s mission is to educate students about the principles of free markets, limited government, and fiscal responsibility. Under Kirk’s leadership, the organization rapidly grew, establishing a strong presence on college campuses across the United States. TPUSA became known for its events, activism, and outreach programs aimed at young conservatives.

Charlie Kirk was a prominent public speaker who has addressed audiences at numerous conservative conferences, including the Conservative Political Action Conference (CPAC) and the Republican National Convention. His energetic speaking style and outspoken views made him a popular figure among young conservatives. Kirk hosted “The Charlie Kirk Show,” a daily podcast and radio show where he discussed current events, politics, and cultural issues from a conservative perspective.

Kirk was influential supporter of various Republican candidates and causes. He was a vocal advocate for former President Donald Trump and has campaigned for conservative policies and candidates across the country. Through his work with TPUSA, Kirk mentored and mobilized young conservatives, playing a significant role in shaping the Republican Party’s outreach to youth voters.

Charlie Kirk’s activism has not been without controversy. He faced criticism for his rhetoric and tactics, both from political opponents and sometimes even from within conservative circles. TPUSA has been the subject of scrutiny regarding its campus activities and some of its members’ statements. Kirk, however, remained a steadfast defender of his organization and its mission, often addressing criticism directly in his public appearances and on social media.

Charlie Kirk was known for his commitment to his faith and often speaks about the importance of Christianity in his life and work. He is married to Erika Frantzve, and together, they are involved in various philanthropic and advocacy efforts.

Through his work with Turning Point USA, media endeavors, and public speaking, Kirk continued to influence political discourse, particularly among young Americans. His efforts have contributed to the ongoing debate about free speech, academic freedom, and the future direction of American conservatism.

Charlie was assassinated on September 10, 2025.

Darren Soto's Response to the Big Beautiful Bill

DARRENSOTO

Representing the 9th District Florida

Dear Mr. Babin,

Thank you for contacting me regarding the Big Ugly Law. Hearing from you helps me better understand Florida's Ninth Congressional District.

President Trump's Big Ugly Law will be a disaster for America, designed so the rich get richer while working families get screwed. It makes record cuts to healthcare, all while adding \$3.4 trillion to the national debt and increasing borrowing by \$4.1 trillion.

The Big Ugly Law makes the largest-ever cut to Medicaid. Approximately 15 million Americans are expected to lose their health insurance, resulting in increased out-of-pocket healthcare costs for families in Central Florida. It also makes the largest-ever cut to SNAP, putting 253,000 Floridians at risk of losing their food assistance. These cuts alone will lead to a loss of 46,500 jobs in Florida.

It also terminates a handful of clean energy investments that boost the supply of American-made energy, increasing \$80 in annual electricity costs in Florida. As if that weren't enough, Florida households will spend an average of \$220 more per year on gas, placing an even bigger strain on the pockets of thousands of families across Central Florida.

Mortgage costs are expected to rise by an average of \$450 annually, further exacerbating the affordable housing crisis. Student loan borrowers in Florida can expect to pay an average of \$210 and up to \$350 more per month, and small-business loan borrowers can expect an increase in costs for a fixed-rate loan by an average of \$720 annually.

Make no mistake. The Big Ugly Law is a direct attack on the health, well-being, and future of working-class families in Central Florida. House Democrats will stick together to fight it, and I'm looking forward to helping Central Floridians know what's in it, what we can do to stop it, and how we can come together.

Once more, I appreciate you taking the time to communicate with me, and I hope you will continue to do so in the future. If you have not already done so, I encourage you to [sign up for my newsletter](#) to receive email updates on the work I am doing in Congress and how it will affect you and your community. You can also find more about my work in Congress via my [website](#), on my X, Facebook, and Instagram @RepDarrenSoto, and Bluesky @RepDarrenSoto.bsky.social.

Sincerely,

Rep. Darren Soto
Member of Congress

- Para 2: ***"The rich get richer while working families get screwed."*** How Does the Tax Cuts for Seniors, Taxes on Tips and Overtime Pay Help the Rich Get Richer?
- Para 3: ***"largest-ever cut to Medicaid."*** Saves Medicaid from fraud and abuse. Removes Healthy Americans from Receiving Benefits (with conditions) and Removal of All Illegals. How does this not help the American people?
- Para 4: ***"terminates a handful of clean energy investments"***. Saves Americans from Wasteful Spending and High Costs on China Wind and Solar Projects. Focuses on Drilling to Reduce Energy Costs.
- Para 4: ***"spend an average of \$220 more per year on gas."*** Biden recorded \$3.11 gallon of gas (Jan 2025) & compared to Trumps \$2.77. Gas Prices Dropped, How Can It Cost \$220 more?
- Para 5: ***"Mortgage costs are expected to rise by an average of \$450 annually"***. Prices Skyrocketed Under Biden -- Average Home Mortgage of \$2,750 (\$1,700 Under Trump). Average Interest of 7.50% (3.45% When Trump Left Office) and Already Dropped Rates To 6% in Less Than a Year. How Are Prices Expected to Rise When Interest Rates Are Dropping?
- Para 6: ***"Make no mistake. The Big Ugly Law is a direct attack ..."***. If You Look at the Results, It's the Opposite. Almost One Year in Office, Real Income Up, Gas Prices Down and Inflation Dropping!

This is only a small sample of criminal illegals that President Trump and the Republicans want to remove from our country. While the democrats want to increase and support the number of illegals!

Information on these illegals and thousands more can be found at: www.dhs.gov/wow

Deaths by Illegals in 2025

Listed below are the real victims the left ignore - a few of the names **killed by illegals** in 2025. The democrats claim illegals kill at a lower rate than Americans, yet it would be 0 if they were not here! Yes, to legal immigration, but no to illegal immigration. Pray for these families, you never hear their names from the democrats. These were moms, dads, brothers, sisters, nieces and nephews killed before their time!

This is a small list of individuals who should be alive today. The listing would be endless if we used all crimes (rape, robbery, assault, etc). Should we allow them in our country (**Democratic** policies) or arrest, prosecute and deport (**Republican** policies)? Should we give illegals priority over American Citizens.
